Education

2017-2020
Bachelors in Science and Technology
@ Federal University of ABC

Language

English ●●●○

Profile

Bachelors in Science and Technology from Federal University of ABC. Over 4 years, I've excelled in Python, **specializing in** Information Retrieval, Data Storage, data mining, ETL, REST APIs, logging, DevOps, web scraping, automation, data visualization, SQLite integration, automated testing. Proven skills in PostgreSQL/MySQL for query optimization, database design, stored procedures, indexing and AWS such as IAM, EC2, Lambda functions, S3 etc. My **current goals** include pursuing a career as a blockhain engineer and improving my skills in this area.

Experience

2022 - Present
Quasar Asset Management

Data Analyst/Data Engineer

I leverage the aforementioned skills by integrating technology and finance (FinTech) to deliver increased efficiency and, consequently, value to the company.

2019 - 2021
Itaú Unibanco

Management Information System Intern

Making accounting easier by using automated processes, organizing data efficiently, and improving how information is shown so we can make better decisions.
